

# Microsoft Teams Integration

## Enhancing the Microsoft Teams experience with unmatched video communication

Microsoft Teams is an exceptional tool for persistent collaboration and document sharing within your organization. The Lifesize integration with Microsoft Teams adds extraordinary video conferencing inside and outside your organization from within the Teams workflow. Together this gives you the best of both worlds.

### Fits within existing workflows

Lifesize integration with Microsoft Teams allows for a smooth implementation and works with the user experience you are already familiar with, making it easy for users and IT.

### Exceptional meeting experience

Enhance your Microsoft environment with industry-leading video call quality and interoperability. Easily communicate with customers, partners and suppliers wherever they are. Even if they don't use Microsoft Teams, people outside the organization can connect to a Lifesize meeting effortlessly using their web browser or any video conferencing system.

### Best of both worlds

Boost adoption in Microsoft Teams and empower your people to be more effective and engaged by combining exceptional video conferencing from Lifesize with the best elements of Microsoft Teams for internal collaboration.

And if you prefer to bring your Lifesize video conferencing systems into a Microsoft Teams meeting, we have a solution that includes easy scheduling and calendar integration so that when you walk in the room, it's one touch to join your Teams meeting! Contact Sales to learn more.
